Dr. Deborah Chen will be the keynote speaker. Dr. Chen is a professor in the Special Education Department at California State University, Northridge. In addition to Dr. Chen's presentation, there will be breakout sessions presented by local experts. Session topics will include speech development, behavior, seizure disorders, visual impairment, medical advocacy, adapting toys and cultural diversity.

News About Area Support Groups

The good news is: the number of area support groups has increased significantly over the last two years.

The bad news is: FRN does not have enough space in the newsletter to list all the important information for each group, so...

effective immediately, support groups are encouraged to email or mail flyers and information on their groups to FRN. FRN will have the information on display in the office and will share information as appropriate with families who call FRN asking for info on specific disabilities or support groups.

Get All the Latest Info

FRN will email you up-to-the-minute information on news items, trainings and other issues of interest to families raising children with special needs. FRN's newsletter is published only 3 times per year so email is a great way to keep up on important information. If you would like to be added to FRN's email list, email the following info to FRNfamilies@aol.com:

- Your name
- The county you reside in
- Please indicate if you are a parent of a child with special needs or a professional working with special needs children

and

♥ Barbara Poindexter♥

who were honored with Friend in Deed certificates for their exceptional caring and commitment toward children with special needs and their families.

What's a CAC?

CAC stands for Community Advisory Committee, which is a legally mandated group formed to advise Special Education Local Plan Areas (SELPA) about issues affecting children receiving special education services. CAC members are parents of children with special needs, representatives from private and public agencies and representatives from school districts and the SELPA. Parent committee members are appointed by their school district. CAC meetings are open to the public. One does not need to be an official voting member to attend. Time and duration of meetings vary by SELPA. CACs are a great place for parents to meet other parents of special needs children. It is also a place where parents can meet education and other professionals and learn more about programs/services that are in the community. Many CACs provide workshops or other events on topics of interest to special needs families.

FRN will be conducting workshops at CACs as follows:

Stanislaus County CAC:*

10/22/08 - Special Education Rights

1/28/09 – The Road Less Traveled: Understanding the Emotions Experienced by Families Raising Children with Special Needs

San Joaquin County CAC:*

12/1/08 – Parental Rights in Special Education

3/2/09 – Moving Forward: Helping Your Child Transition to Adult Services

The Legislative Process: How You Can Participate

*Excerpted from presentation by Julia Barnes,
State Council on Developmental Disabilities*

Communicate Your Position

If you are concerned about issues let your legislator know. Call the district office. Write a letter. Meet with your legislator, or a member of his staff. You have valuable information that can help him decide how to vote.

Letter Writing Guidelines

Address your letter properly. Elected representatives are addressed as "The Honorable" followed by their name.

Write about one subject only. Be brief and to the point. A rambling letter that takes up 10 pages and never quite gets to the point will not be as persuasive as one that builds a case.

Writing A Letter

Use your own words. You are the expert. Explain what the impact will be and why your legislator should vote as you ask.

Write legibly. Your letter does not need to be typed.

Be courteous. Most people, including legislators, don't respond positively to threats.

Timing is critical. The best letter in the world won't have much impact if it arrives after the legislator has already voted on the bill.

Visit Your Legislator

Legislators come from different backgrounds and have different experiences. Learn about your legislator, especially what committees he's on.

Be prepared. Review the information you have learned about your issue.

Be on time and stay within your allotted time.

Avoid arguments. You're trying to get the legislator to see things from your perspective, creating an adversary won't help.

Always be honest. You have two valuable things to offer - your experience and your integrity.

12 Commandments for Parents of Children with Disabilities

By Virginia Richardson, Pacer Center

1. Thou art thy child's best and most consistent advocate.
2. Thou has valuable information about your child. Professionals need your input.
3. Thou shalt put it in writing and keep a copy.
4. Thou shalt try to resolve problems at the lowest level but not hesitate to contact a higher authority if the problem is not resolved.
5. Thou shalt keep records.
6. Thou shalt seek out information when needed.
7. Thou shalt take time to think through information before making a decision.
8. Thou shalt have permission to be less than perfect. Important lessons are learned from both successes and failures.
9. Thou shalt not become a martyr. Decide to take a break now and then.
10. Thou shalt maintain a sense of humor. It is great for your emotional well being and that of your child.
11. Thou shalt always remember to tell people when they are doing a good job.
12. Thou shalt encourage the child to make decisions because one day he or she will need to do so.

The worst thing that can happen to you can be the best thing for you, if you don't let it get the best of you.
